## HIGHLAND BRAND EVAPORATED CREAM IS THE SIMPLEST YET MOST COMPLETE FOOD FOR INFANTS

From our Model Dairy Farms we obtain *milk of the highest quality*—sterilize it, and evaporate it down to a cream-like consistency. Our special treatment of the casein, while being heated, makes it more easy of digestion and more readily assimilated than raw milk. *Clean milk is absolutely essential in infant feeding.* Highland Brand Evaporated Cream is the cleanest of milk—pure, germ-free, of uniform composition—and always ready.

"The Preparation which made Coca known as a Remedy!"

# VIN MARIANI

*Introduced Half a Century Ago, Maintains Inimitable Excellence.*

**FORMULA:** VIN MARIANI combines in an agreeable and nutritious French Grape Wine the Unique Medicinal Properties of Specially selected Erythroxylon Coca. Each half-litre bottle represents the Aromatic and Desirable Constituents of Two Ounces of Fresh Coca.

## MODE OF ADMINISTRATION.

**ADULTS:** The usual portion is a wineglassful directly before, or after each meal.

**CHILDREN:** A proportionate quantity according to age and necessity.

VIN MARIANI is absolutely pure, contains no harmful ingredient, and is entirely free from unpleasant after effects. It may be employed as frequently and as liberally as directed by the physician.

## GOVERNMENTAL ANALYSIS MADE AT THE PARIS MUNICIPAL LABORATORY.

Quantitative analysis number 247.

The Director of the Municipal Laboratoire de Chimie certifies Vin Mariani represents exactly:

# Listerine Dermatic Soap

An antiseptic detergent for use in  
the antiseptic treatment of  
diseases of the skin.

LISTERINE "Dermatic" Soap contains the essential antiseptic constituents of eucalyptus (1%), mentha, gaultheria and thyme (ea.  $\frac{1}{4}\%$ ), which enter into the composition of the well-known antiseptic preparation Listerine, while the quality of excellence of the soap-stock employed as the vehicle for this medication, will be readily apparent when used upon the most delicate skin, and upon the scalp. Listerine "Dermatic" Soap contains no animal fats, and none but the very best vegetable oils; after its manufacture, and before it is "milled" and pressed into cakes a high percentage of an emollient oil is incorporated with the soap, and the smooth, elastic condition of the skin secured by using Listerine "Dermatic" Soap is largely due to the presence of this ingredient. Unusual care is exercised in the preparation of Listerine "Dermatic" Soap, and as the antiseptic constituents of Listerine are added to the soap after it has received its surplus of unsaponified emollient oil, they retain their peculiar antiseptic virtues and fragrance.

A sample of Listerine Dermatic Soap may be had upon application to the Manufacturers

# What is your Favorite Germicide?

**Is it mercury bichloride?** Alphozone is better because, while equal in germicidal strength, it is non-poisonous and does not form an insoluble precipitate with albumin.

**Is it carbolic acid?** This, too, is poisonous and continued use often causes inflammation or hardening of the tissue. Alphozone is 75 times stronger as a germicide and has none of the disadvantages of carbolic acid.

**Is it hydrogen peroxide?** It decomposes readily and is very bulky. Alphozone is stable; is a powder and therefore convenient to carry; and its solutions do not effervesce, therefore they may be used in cases where hydrogen peroxide solution would be undesirable because of its effervescence. Alphozone is 3300 times stronger as a germicide than U. S. P. hydrogen peroxide solution.

**Is it Alphozone?** If so, you have chosen the best. Alphozone[succinic peroxide,  $(\text{COOH}.\text{CH}_2.\text{CH}_2.\text{CO})_2\text{O}_2$ ] has not only the advantages already mentioned but presents a more desirable combination of physical and chemical properties than any other germicide. It is a soluble powder. Its solutions are odorless and colorless. It is adapted to both internal and external use, wherever a germicide can be brought in contact with the pathogenic micro-organisms present.

A small book that we have just issued discusses the chemistry, bacteriology and therapy of Alphozone in a very interesting way and we take pleasure in sending a copy and a sample of Alphozone (powder or tablets) to any physician on request.

WASHINGTON, D. C., Jan. 2, 1890.

This is to certify that the exact Antiseptic strength of Tyree's Pulv. Antiseptic Comp. is one part of the Powder to 50 of water (1:50). Test-tubes containing peptonized beef broth were charged with the powder (Tyree's Anti-septic Powder.) The solution was then inoculated with the Anthrax Bacillus and with the Straphylococci of Pus and the tubes placed in the incubator for 48 hours at a temperature of 39 deg. C. On removing the tubes from the incubator it was found that in the solutions of one in ten to one in fifty there was no development of Bacteria.

**T**HE smallest actual fact is better than the most magnificent statements of impossibilities. Tyree's Antiseptic Powder promises no more than it really does. It has been found extremely useful when applied to all mucous surfaces, external or internal—Vaginal, Urethral, Rectal, Nasal, Oral, Pharyngeal, Intestinal, etc. Dilutions up to 1 part in 50 are still germicidal; that gives great value and makes it economic. Its range of utility in the large field of antiseptics is wider than that of any other preparation.

Dear Doctor:—

Are you aware of the fact that we have allied our interests with yours so that what is best for you will be best for us?

We do no more testing of eyes, confining our efforts to the manufacture of glasses and their careful adjustment to your patient's face. Why not send your work to a firm who is not your competitor, and thus hold your patients; so that when, for them, the inevitable day of a change of glasses arrives, they will be returned to you and not refracted by your optician? Sincerely yours,

As to the Comparative Antitoxic Value of Serums Produced by Government Inspected Plants there can be no valid claim for greater virtue in the high-priced serums. Government inspection is rigid, and the measure of Toxin-neutralizing units must not be less than is stated on the label of each package; therefore, a 1000, or a 2000, or a 3000, or a 4000 unit package of our XX or X serum ABSOLUTELY EQUALS IN ANTITOXIC AND LIFE-SAVING VALUE a package containing a corresponding number of units of the highest-priced serum on the market.

Our Piston-Syringe Container is the safest and easiest to use of any. It is made ready for use more quickly than an ordinary hypodermic syringe, and in its use there is no danger to operator or patient as there is when glass breaking devices are used. Serum is stored in it under rigidly aseptic conditions and comes in contact with glass and pure rubber only.

## TRI-IODIDES (HENRY'S) LIQUOR SALI-IOIDES.

*Colchicin. 1-20 grain. Phytolaccin, 1-10 grain. Solanin, 1-3 grain. Soda Salicylate, 10 grains. Iodic Acid, equal to .32 grains Iodine. Aromatic Cordial. Dose 1 to 2 drams in water. 8-oz. bottle, \$1.00.*

A powerful alterative and resolvent, glandular and hepatic stimulant, and succedaneum to the iodides. Indicated in all conditions dependent upon perverted tissue metabolism; in lymphatic engorgements and functional visceral disturbances; in lingering rheumatic pains which are "worse at night." Bone, periosteal and visceral symptoms of late syphilis; for the removal of all inflammatory, plastic and gouty deposits.

A remedy in sciatica, megrim, neuralgias, lumbago and muscular pains; the gouty and rheumatic diathesis; acute and chronic rheumatism and gout; chronic eczema and psoriasis, and all

dermic disorders in which there is underlying blood taint.

An hepatic stimulant increasing the quantity and fluidity of the bile. Relieves hepatic and intestinal torpor; does not cause the unpleasant gastric symptoms of potassium iodide.

## THREE CHLORIDES (HENRY'S) LIQUOR FERRUGINE.

*Each drachm contains Proto-Chlor. Iron, 18 gr.; Bi-Chlor. Mercury, 1-128 gr.; Chloride Arsenic, 1-280 gr.; Calisaya Cordial. Dose, 1 to 2 drachms. 12-oz. bottle, \$1.00.*

An oxygen-carrying ferruginous preparation, suitable for prolonged treatment of children, adults and the aged. Indicated in anemia and bodily weakness, convalescence from acute diseases and surgical operations; boys and girls at the age of puberty, and the climacteric period in women. In children with chorea, rickets, or who are backward in development, or in whom there exists an aversion to meats and fats. Prolonged administration never causes "iron headache."

As an adjuvant for potassium iodide the undesirable manifestations known as iodism can be removed. Stimulant to the peptic and hydrochloric glandular system of the stomach, especially serviceable in the impaired appetite, nausea, vomiting and other gastric symptoms of alcoholic subjects.

## MAIZO-LITHIUM (HENRY'S) LIQUOR LITHII MAIZENATE.

*Nascent Chemc Union of Maizenic Acid—from Green Corn Silk—with Lithium, forming Maizenate-Lithium. Two grains to drachm. Dose, 1 to 2 drachms. 8-oz. bottle, \$1.00.*

A genito-urinary sedative, an active diuretic; solvent and flush indicated for the relief and prevention of renal colic; a sedative in the acute stages of gonorrhea, cystitis and epididymitis; in dropsical effusions due to enfeebled heart or to renal diseases. As a solvent in the varied manifestations of gout, goutiness and neurotic lithemia, periodical migrainous headache, epigastric oppression, cardiac palpitation, irregular, weak or intermittent pulse; irritability, moodiness, insomnia and other nervous symptoms of uric-acidemia. Decidedly better, more economical, extensive

in action and definite in results than mineral waters.

Those cases of irritable heart, irregular or intermittent pulse so frequently met with by insurance examiners and found to be due to excess of uric acid, are special indication for Maizo-Lithium.

"Probably no book that has appeared this year has been looked forward to with so much anticipation as this work of Dr. Tuttle. Not only has the author gained an enviable national reputation as a specialist in his chosen field, but he is widely known also as a successful teacher in this comparatively new specialty. Great expectations are apt to meet with disappointment, but in this instance there is a marked exception. The book is almost encyclopedic in the amount of information it contains, and yet the information is presented in a concise and attractive style. The illustrations in the book are on a high plane of artistic merit; they are readily understood, and are also instructive."—*The New York State Journal of Medicine.*

The instrument illustrated herewith, while exceedingly simple, is perfect in construction and will be found a very efficient one in covering the field where mechanical vibration is indicated.

The rapidity of its vibrations exceeds 5000 per minute and can be graduated by the operator from 0 to the point of stopping its action.

With the exception of the conducting cord connecting with the current, the entire instrument is in the hand of the operator, and the patient can be treated without change of position.

"Mechanical Vibration, which properly includes two forms of application—spinal stimulation and vibra-massage—has established an important place in therapeutics which it is certain to fill to the advantage of suffering humanity."

**CYSTOGEN APERIENT WILL PREVENT INVOLVEMENT OF THE KIDNEYS DURING THE COURSE OF INFECTIOUS DISEASES.**

An effective prophylactic in all febrile conditions, particularly scarlet fever, diphtheria, typhoid and other infectious diseases accompanied by high temperature and retarding the activity of the kidneys. Stimulates excretion of urine and flushes the entire urinary tract with a dilute solution of formaldehyd, thus rendering the urine sterile. Inhibits the growth of pyogenic bacteria and prevents decomposition of urine.

Prevents formation of uric acid accumulations and dissolves concretions in their incipency.

CYSTOGEN APERIENT is particularly valuable in Gout, Rheumatism, Calculus, Cystitis, Gonorrhoea and all Infectious Fevers.

Dose: A heaping teaspoonful in water three or four times daily.
